6. Accidental Release Measures

Personal Precautions

Environmental Precautions

Clean-up Methods

Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Wear appropriate PPE to prevent inhalation and contact with skin and eyes. Spilled material may make surfaces slippery.

Stocks of suitable absorbent material should be held in quantities sufficient to deal with any spillage.

Protect drains from potential spills to minimise contamination. Protect environmentally sensitive areas and water supplies.

First eliminate ignition sources, and then stop source of release if it can be done without risk of harm. Contain the spill with hydrocarbon-proof dykes to prevent further contamination of soil, groundwater or surface water. Clean-up using appropriate, inert absorbent material that must be disposed of as hazardous waste in accordance with local regulations. DO NOT wash product into drainage. Place sufficient signage around spill indicating a slipping hazard and prevent access to the spill site.

Scrub contaminated area with detergent and water using a stiff broom. Pick up liquid with additional absorbent and place in a disposable container.

7. Handling and Storage

Safe Handling

Avoid all contact with skin and eyes by using appropriate PPE. Wash thoroughly after handling and before eating, drinking, smoking or using toilet facilities. Do NOT eat, drink or smoke in work areas.

Safe Storage

Store away from sources of ignition, and away from strong acids and oxidising agents. Store in appropriate, clearly labelled and bunded containers in a cool, dry area. Do NOT allow cutting, welding, brazing, soldering, drilling or grinding in proximity to containers.

8. Exposure Control/ Personal Protection

Exposure Limits (where established)

Ingredients	Occupational Exposure Limits	Ingredients	Occupational Exposure Limits

Water	-	Chlorinated Paraffin	-
Diesel	100 mg/m ³ (as total hydrocarbons)	Ethylene Glycol	-
Gasoline	300 ppm (as gasoline motor fuel)		

Control Measures

Prevent any contact during handling. Ensure adequate ventilation and PPE when handling material.

Personal Protective Equipment (PPE)

Personnel to wear polyvinyl alcohol or nitril-butyl rubber gloves that satisfy specifications of EU Directive 89/666/EEC and EN 374. Wash gloved hands thoroughly before removing and dispose of contaminated gloves appropriately.

Eye protection must include tightly fitting safety goggles. Eye wash stations must be available for personnel.

General Precautions

Avoid contact with skin and eyes; avoid breathing vapours and mists.

Environmental Exposure Control

Prevent spillage and do NOT allow into drains, sewers, or any other water course. Store in adequately bunded areas in well-sealed containers that are not exposed to the elements. Immediately advise appropriate local authority if spillage or contaminated runoff occurs.
